

## **International Symposium on Supportive Care in Cancer (MASCC/ISOO)**

**June 26-28<sup>th</sup>, 2014.**

**Miami Convention Centre, Florida, USA**

Dear Members of the Press,

Supportive Care in Cancer is the prevention and management of the adverse effects of cancer and its treatment. This includes the management of physical and psychological symptoms and side effects.

Supportive care makes superior cancer care possible. It is supported by excellent science as we strive to enhance the lives of people with cancer at all stages of the disease. The value of supportive care in cancer is increasingly recognized. Our annual International Symposium attracts attendees from over 50 countries. It is a wonderful opportunity to learn, teach, communicate, network and share in the process of enhanced knowledge of supportive care and improved cancer care outcomes.

We are pleased to invite you to attend the
